From Our Registrar:

Get ready to play! PCJSL has created a new schedule that better accommodates our players and teams. We had great growth in 2022-23 and expect that to continue in 2023-24.

Now is the time to begin creating your new 2023-24 teams. Team registration is open June 1 for both US Club and ASA. You can find a reminder of how to create new teams in US Club by visiting <https://gotsport.zendesk.com/hc/en-us/articles/360038920014> . Registration for teams choosing to play in ASA is also available through their system.

Please remember that when creating a team, you will want to select the [team age](#) as of that day for US Club and, I believe, ASA. The GotSports system will automatically update the team age on August 1 and specific event registration automatically update the team's age according to the event start date. Once your new teams have been created you will be ready to register all your teams for the 2023-24 season on June 1.

From Our Scheduling Team:

U15-19 games start Aug 26, 2023 - Event Registration will open soon and close on Aug 5, 2023.

U9-14 games start Sept 9, 2023 - Event Registration will open soon and close on Aug 19, 2023.

- ALL teams must provide minimum rosters before being accepted to any PCJSL event (7v7 = 5 players; 9v9 = 6 players; 11v11 = 7 players)
- ALL teams signing up for PCJSL events will be expected to play some double-headers in order to get all regular season games played. *Teams that attend tournaments always play at least one double-header during a tournament, so there is no excuse for not doing so during the PCJSL season.*
- In addition to using double-headers to accommodate scheduling conflicts on Saturday and Sunday play dates, to the extent fields and referees are available, PCJSL will also use mid-week dates for make-ups agreed to by both teams. PCJSL will also attempt to obtain fields that could be used on a tournament weekend if both teams are NOT playing in the tournament and referees are available.
